#### **Outstanding items**

1992Xrb32-92HDrb32 will appear next issue.

I still need to catch up on assigning NAVB catalog numbers.

I realize that this issue is long over due. Personal reasons have made it very difficult to get anything done the last year and a half. However, if I don't start getting future A&Os out at least every six months, if not sooner, I will look for a new Miller Number Custodian.

### The Pope Patrice Verry

Retyped for the Belgian Variantothèque by Jef Bryant in February 1992. Based on the rules written by Patrice Verry.

- 1) All the classic rules of Diplomacy (version 1971) apply except for the modifications below.
- 2) At the beginning of the game the Pope secretly chooses a country. If this country wins the Pope wins in his place.
- 3) On each turn the Pope can "excommunicate" a unit which can then only hold in place for that turn.

Additional rule.

4) The Pope can "inspire" a unit which then is forced to obey the order given to it by the Pope in place of its original order.

Translated by Jef Bryant, February 1992.
